

Application Serial No. 10/600,054
Amendment Filed January 7, 2004

REMARKS/ARGUMENTS

Reconsideration of this patent application is respectfully requested in view of the foregoing amendments and the following remarks.

The claims previously presented include the changes incorporated by the Examiner in the telephone interview with Frederick Dorchak on December 11, 2003.

Claims 1 and 11 have been amended so that the term "single" relating to the term "aperture" has been changed to "at least one".

New claim 12 is similar to claim 1 but new claim 12 does not contain the "lid" element presented in claim 1. The applicant believes that the remaining claims 1-12 are patentable including this new claim 12.

Therefore, in view of the foregoing, it is respectfully requested that the claims be allowed and that this case be passed to issue.

Applicant respectfully request that a timely Notice of Allowance be issued in this case.
